

DS	Session	Linked List	Question Information	Level 1 Challenge 31
Question description Professor Shiva decided to conduct an industrial visit for final year students, but he set a condition that if students received a passing grade in the surprise test, they would be eligible to go on the industrial visit. He asked the students to study a topic linked list for 10 minutes before deciding to conduct a surprise test. Professor-mandated questions, such as the deletion of nodes with a certain data D, are now being asked. For example if the given Linked List is 5->10->15->10->25 and delete after 10 then the Linked List becomes 5->15->25. Constraints 1 < N < 100 1 < D < 1000 Input Format First line contains the number of data:- N. Second line contains N integers(the given linked list). Next line indicates the node data D that has to be deleted. Output Format Single line represents the linked list after required elements deleted.				
Logical Test Cases				
Test Case 1		Test Case 2		
INPUT (STDIN)		INPUT (STDIN)		
6		10		
7 9 8 8 4 2		5 3 7 2 7 9 8 8 4 2		
8		2		
EXPECTED OUTPUT		EXPECTED OUTPUT		
Linked List:->7->9->4->2		Linked List:->5->3->7->7->9->8->8->4		

✓ Mandatory Test Cases

Test Case 1

KEYWORD

struct node

Test Case 2

KEYWORD

node *next;

Test Case 3

KEYWORD

void create()

Test Case 4

KEYWORD

p2=p2->next;

Test Case 5

KEYWORD

void del()

✓ Complexity Test Cases

Test Case 1

CYCLOMATIC COMPLEXITY

3

Test Case 2

TOKEN COUNT

280

Test Case 3

NLOC

65
